Mabel Dickinson,	Dennis Reagan,
Anna M. Downey,	Willie Ripley,
Jay L. Ripley,	H. Leon Ripley,
Mary Rowley,	Helen M. Ripley,
Maggie Roberts,	Fanny Peebles.
Eddie Tryon,	

Your Committee are gratified in being able to say that our schools, with perhaps one or two exceptions, have, through the year, been in a prosperous condition. We have, on the whole, been favored with an excellent corps of teachers, who have been interested in their work, and have endeavored to do their best. They have certainly done themselves honor, and have advanced the interests of the schools.

The people in District No. 5 have done themselves great credit in erecting a new, commodious, and thoroughly-built school-house, located where it is thought to be, for the district generally, much easier of access than the old one. Credit is particularly due to Mr. William Wells and others, by whose energy and perseverance, under difficulties always incident to the erection and location of school-houses, this enterprise has been carried to a successful issue. We sincerely hope that their neighbors and cousins of District No. 6, stimulated by their example, may, during the coming season, be induced to perform a like praiseworthy deed.

In District No. 7 the house has been thoroughly repaired and refurnished with patent seats and desks at an expense of nearly \$200.00. District No. 1, thinking to improve on the action of the town at its last annual meeting, concluded to let things slide, until they found themselves at the bottom of the hill with no organization and no one authorized to set up a school. This devolving on the Town Committee, and said Committee deeming it improper that such a model teacher as Miss Stowe should be compelled to work without suitable tools, caused to be made and put up in the house three substantial blackboards which, if the same teacher shall be retained from term to term, we are confident will be a profitable investment. Your Committee suggest that no District, under any circumstances, should allow themselves to lose their organization, or be without a Prudential Committee. As long as we retain the district system let every district have their proper officers, that wood and other requisites may be promptly provided.

We are sorry to notice that our schools are not appreciated as they should be. This is evinced by the irregular attendance of many of the pupils, and also by the fact that some parents keep

their children out of school after the commencement of the term for the mere pittance they can earn in shops or on the farm ; thus creating, in the minds of such children, the impression that the school is of secondary importance, as well as placing an obstacle in the way of teachers, highly detrimental to the prosperity of the school. Teachers are entitled to every facility for the successful operation of such plans as are adapted to the prosperity of the schools. And parents should remember that no instructor can teach children who are not in school. Our motto should be—the best of teachers, and then material for them to work upon.

We would earnestly recommend that all our schools be run 30 or 32 weeks during the year ; also, that the terms be so arranged that all the schools may close on or before the first of March.

All of which is respectfully submitted.

GEO. H. ATKINS,	} Committee.
GEO. D. FELTON,	
E. D. DICKINSON,	

Granville, March 14, 1881.

Excess of expenses,	\$61 21
Average cost per scholar,	\$9 31

Cost per scholar in each District as follows :

No. 1, \$5 55	No. 7, \$10 65
No. 2, 9 06	No. 8, 7 51
No. 3, 7 77	No. 9, 14 64
No. 4, 7 12	No. 10, 9 99
No. 5, 12 80	No. 11, 8 80
No. 6, 7 27	

ROLL OF HONOR.

Pupils neither absent nor tardy for a term or more :

Mary H. Atkins,
 Alice W. Barnes,
 Sadie L. Barnes,
 Jennie E. Barlow,
 Henri Brown,
 Sobrieski Champlin,
 Mary Clifford,
 Jessie Cone,
 Carrie Cooley,
 Mary Cooley,
 Anna M. Downey,
 Charlie Downey,
 Bennie E. Fox,
 Bertha Fox,
 Hattie E. Frisby,
 Bessie Gillett,
 Effie Gillett,
 Harvy Greene,
 Julia Holihan,
 Bertie Ives,

Jennie Johnson,
 Minnie Keep,
 Jessie McCarty,
 Lizzie McCarty,
 Maggie McCarty,
 Ellen Palmer,
 Eddie H. Peebles,
 Fanny A. Peebles,
 Lena Pomeroy,
 H. May Ripley,
 H. Leon Ripley,
 Jay A. Ripley,
 Ida L. Roberts,
 Joseph W. Roberts,
 M. Buell Tinker,
 Charles Treat,
 Charles H. Treat,
 Melvin Webb,
 Frank Wilcox,

Our schools have generally been prosperous. All but three have been in session thirty weeks during the year. In District No. 6 there is no room fit for a school; the people in that District have, for two or three years, been talking of building, but as yet nothing has been done. Owing to their own negligence, they have had but four months' schooling during the year.

In District No. 9 it was not thought best to have a school in the winter, there being but three pupils in the District, and they could, with less expense to the town, be accommodated in District No. 8. In District No. 11, which is the Union or Hollow District, the school has been in session but six and one-half months.

In District No. 8 the school has been in session thirty-three weeks, three weeks of which was a subscription school, the cost of which has not been included in the expenses of the town. In District No. 2, and in the Grammar School, District No. 3, the teachers were unable, from ill health, to complete the winter

term; but in both schools other teachers were obtained, so that no detriment occurred to either school.

A complete change of readers has been effected in all the schools during the year, the need of which was deeply felt, both by the Committee and by many of the teachers; the pupils had, from long use, become so perfectly familiar with the old readers that it was impossible to excite in their minds any interest in their reading lessons. A correspondence was, therefore, opened with a publishing house in Boston, which was ready to furnish new readers at a liberal discount on all cash receipts, taking also as part pay for new books all the old readers in whatever condition, allowing a fair compensation for the same. The Committee are confident that the prosperity of the schools has been materially promoted by this exchange of readers, and are happy to say that they have met only kindness and good feeling on the part of the people, and cheerful co-operation on the part of the teachers, in making the exchange.

Business transactions as follows:

Books purchased of Wm. Ware & Co.,	\$186 30
Old books sold to Wm. Ware & Co.,	77 46
Cash balance,	\$108 84
On which was a discount of 10%,	10 88
Leaves a cash balance,	\$97 96
Cash received of pupils for new books,	\$54 12
Drew from State Fund to pay balance,	43 84
	\$97 96

Amount of new books in hands of Committee at the time of settlement, for future use, which will eventually be returned to the State Fund, \$48.71; which, reckoned at the above discount of 10%, just balances the amount drawn from the State Fund.

Respectfully submitted,

E. D. DICKINSON, }
 GEO. H. ATKINS, } School Committee.
 GEO. D. FELTON, }

GRANVILLE, March 15, 1882.

ANNUAL REPORTS
OF THE
SELECTMEN, TREASURER,
AND
SCHOOL COMMITTEE
OF THE
Town of Granville,
FOR THE
Year Ending March 3, 1883.

WESTFIELD, MASS.:
CLARK AND STORY, BOOK AND JOB PRINTERS.
1883.

Selectmen's Report.

Expenses of the town of Granville for the current year :

The management and expense of the town government for the year ending March 5, 1883, summarized under heads of different appropriations, are herewith respectfully presented for your consideration and approval.

The Treasurer's Report, full and explicit, will show a healthy financial condition and a reduction of the town debt in the last four years, from thirty-five hundred dollars to one thousand dollars. The last named sum is paying interest at five per cent.

Holihan, Julia	Tryon, Mamie
Hollister, Lottie	Williams, Minnie

No school has been in session in No. 6, during any part of the year. In the autumn one pupil living in No. 6 attended school in No. 5. During a portion of the winter term, such children as could be collected have been transported to school No. 5, at an expense to the town of twelve dollars and fifty cents. In

District No. 9, there has been no school during the winter, and unless children should move into the District, there probably will be none for the year to come. In the Hollow, or Union District, we still have two or three children, for whose attendance we pay our proportion of the expense, according to the number of pupils. All the schools, except the two mentioned above, have been in session thirty weeks during the year, and, with one or two exceptions, have been in a prosperous condition.

In submitting our report, however, we desire to call attention to a few thoughts which, to us, seem worthy of the candid consideration of all who are interested in the advancement of popular education.

We believe the interest of the schools demands that, as far as practicable, experienced and faithful teachers be employed in all our schools. In schools of not more than ten or twelve pupils, and those young and backward, there is some show of reason, perhaps, in venturing to employ teachers of little or no experience. But even in such schools, the teacher should have some tact in managing children, and some definite idea of what children are to learn, and how they are to be taught. In fine, we want in all our schools, teachers who are well stocked with *good, common sense*. And when we find teachers who have these qualifications, and who are also familiar with the branches to be taught, we think it advisable to retain the services of such as long as we can.

The importance of thoroughness and drill in the school-room cannot be too deeply felt, either by teachers or parents. The lack of this must greatly retard the student's progress at every step. A failure, for instance, to master the simple rules in arithmetic, must be disastrous to the whole future study of the science. We believe, therefore, that more time should be devoted to these rules, in order, not only to a better understanding of the principles involved, but especially that the pupils may become adepts in practice. To be superficial here is to stumble at almost every succeeding step. Here is where "haste makes waste."

Another thing, vitally connected with the prosperity of our schools, is the punctual attendance of the pupils. As a matter

of pure economy it is vastly important that each pupil attend school each and every day of the term. Few, probably, have ever computed, in dollars and cents, the actual loss incurred by the great number of absences reported on our school registers, from year to year. No less than \$344.13 actually thrown away in one year by allowing children to absent themselves from school when they ought to be in their seats. Study the statistics on this point.

But the loss in dollars and cents, incurred by such irregularity, is small compared to the bad effect which it inevitably has upon the prosperity of the school, and especially upon the interest and advancement of the pupils themselves. It is not in the power of any teacher to secure the general prosperity of any school whose classes are being continually broken up by absentees, so that the lessons can be learned in their consecutive order only by a portion of the class. One, by being absent, loses a lesson to-day, another to-morrow, and then, perhaps, two or three on the same day, and sometimes two or three days, or even weeks, in succession. How is it possible for any teacher to carry a class on successfully in any branch of study, under such circumstances?

And then, how can any child be expected, in this way, either to understand, to be interested in, or to advance in, any study? It creates a dislike for study, leads the delinquent to feel that it is of no consequence whether he learns anything or not, and discourages him by throwing him behind the class. Such a course is only calculated to make dunces and blockheads. If your children are allowed to be absent from school two or three days, or even half-days, in a week, don't be disappointed if they come to dislike the teacher, the school, and everything pertaining to it, and give no evidence of improvement whatever.

We counsel, therefore, a thorough reform on this point. If need be, let there be a sacrifice made. Let every parent and guardian feel in duty bound to secure the most punctual attendance possible of his children during the term. Remember that by neglecting this you are inflicting positive wrong upon the children. You are robbing them of that, the loss of which cannot be compensated with money. You are subverting the laws

of your country, which have made provision for the education of your children, and you allow them to grow up in ignorance.

Respectfully submitted,

GEO. H. ATKINS, }
GEO. D. FELTON, } *Town Committee.*
M. T. GIBBONS, }

Bertha Fox,	Mary Reeves,
Bessie Gillett,	Charlie Treat,

Daisy Gillett.

REMARKS.

There has been no school any part of the year in No. 9, as there are not children enough there to warrant the expense. In No. 6 we have maintained a school twenty-one weeks, at an expense of \$100. Average number in attendance, $10\frac{1}{2}$.

There seems to be an imperative necessity for a new house, somewhere in the vicinity of Mr. Volney Stowe's, for the accommodation of school No. 6.

We would recommend that the School Committee and the Selectmen, conjointly, be instructed by the town to take this matter into serious consideration, locate the house, and proceed at once to take measures for its erection.

The house on Ore Hill, No. 8, needs very much to be enlarged, at an expense of sixty to seventy-five dollars. The room is altogether too small for the comfort and convenience of the number of pupils, especially during the Winter term.

The school-room No. 1, also, needs thorough repairs. It is impossible for the school to be made comfortable in severe weather, and the seats and desks are in such a condition that the best and only service that should be demanded of them would be in the form of kindling wood. Before anything is done, however, to the school-room, the whole building should be thoroughly repaired, beginning at the foundation.

School-house No. 4, must be newly shingled on one side, and furnished also with two new doors and some new flooring. To cover the expense of all the repairs which ought to be made the present year, and the erection of a new house for school No. 6, the town ought to raise at least \$1000.

Several of the schools, during the Spring term, were very much disturbed by the prevalence of the Measles among the children. In other respects the schools have generally been in a prosperous condition through the year. They have all been supplied with earnest, energetic teachers, who have been interested, and successful in their work.

Three sets of Kennedy's Mathematical Blocks, for illustrating the principles of Geometrical Surfaces and Solids, have been purchased at an expense of \$45 and placed in the schools, and the teachers, so far as they have had occasion to use them, are much delighted with them.

We have made it a point to retain as many as we could of the old teachers whose success was such as to recommend them to our favor and, we are more and more impressed with the wisdom of such a course.

Added to a natural tact for managing children, nothing is more desirable in a teacher than experience, and there is always more or less risk in exchanging teachers.

Good common-sense, patience, perseverance, self-control, a natural love for children, and ease of communication, are traits of character for the exercise of which there will ever be a constant demand in the school-room. In the absence of these, no amount of literary attainments can enable any teacher to succeed.

We counsel parents to secure if possible constant and punctual attendance on the part of the children; a love for truth; a respect for their teachers; regard for authority; and above all, a desire to do that which they *feel* and *know* to be right in the sight of God.

We counsel teachers to labor, first of all, to impress on the minds of their pupils, a sense of *right* and *wrong*; *cultivate the conscience*; make the children feel the force of moral obligation; to study because they ought to; to be kind to each other because they ought

to be so; to be truthful because it is right, and because it is wrong to be otherwise, &c. Make them dread, above all things, to do wrong.

Then, drill, drill, drill, and success will be yours.

Several of the Dictionaries in the schools are so worn as to render it necessary to replace them with new ones, which will probably be done at the opening of the Spring term.

In the Hollow school we have had but three pupils through the year, for whose tuition we have paid the town of Hartland \$19.00.

Respectfully submitted,

M. T. GIBBONS,	}	School Committee.
GEO. D. FELTON,		
REV. L. WARNER,		

GEO. D. FELTON, Clerk.

Daisy Frisbie, 2,
Georgie Barnes, 2,
Ernest Ripley, 2,
May Ripley, 2,
Fannie Peebles,
Nellie Barnes,
Laura Champlin,
Leon Ripley,
Jay Ripley,
Charlie Frisbie,
Dannie Baird.

DISTRICT No. 8.

Carrie Ives,
Addie Harger,
Nelsie Harger,
Fred. Church, 2,
Austin Phelon,
Alden Fenn,
Robert Giddings.

DISTRICT No. 10.

Etta Chapman,
Cora Reeves, 2,
Mary Reeves, 2,
Charlie Treat, 2.

Remarks.

We have purchased during the year, 640 text-books of the various kinds, 547 of which have been loaned to pupils. Most of the books thus loaned have been kept in good condition ; but some of them show evidence of harsh usage ; one is worn out, and one lost.

The school-room in District No. 1 has been made comfortable and convenient, by the putting in of new floor, ceiling, and desks. The school-room in No. 8 ought to be enlarged by taking in the wood room. School-house No. 4 needs to have one side newly shingled, and other repairs, in order to make it comfortable.

We would recommend that an appropriation of \$150.00 be made for repairs on school-houses, and \$250.00 for text-books and supplies, for the ensuing year.

The schools, with two exceptions, have been in session thirty weeks. In No. 6, there were two terms, aggregating seventeen weeks. In No. 9, two terms, twenty-three weeks.

All the teachers have been faithful, and have generally been very successful in their work. They have performed the extra labor of keeping a record, and having the care of the town's text-books, in a manner that meets our hearty approval.

Respectfully submitted,

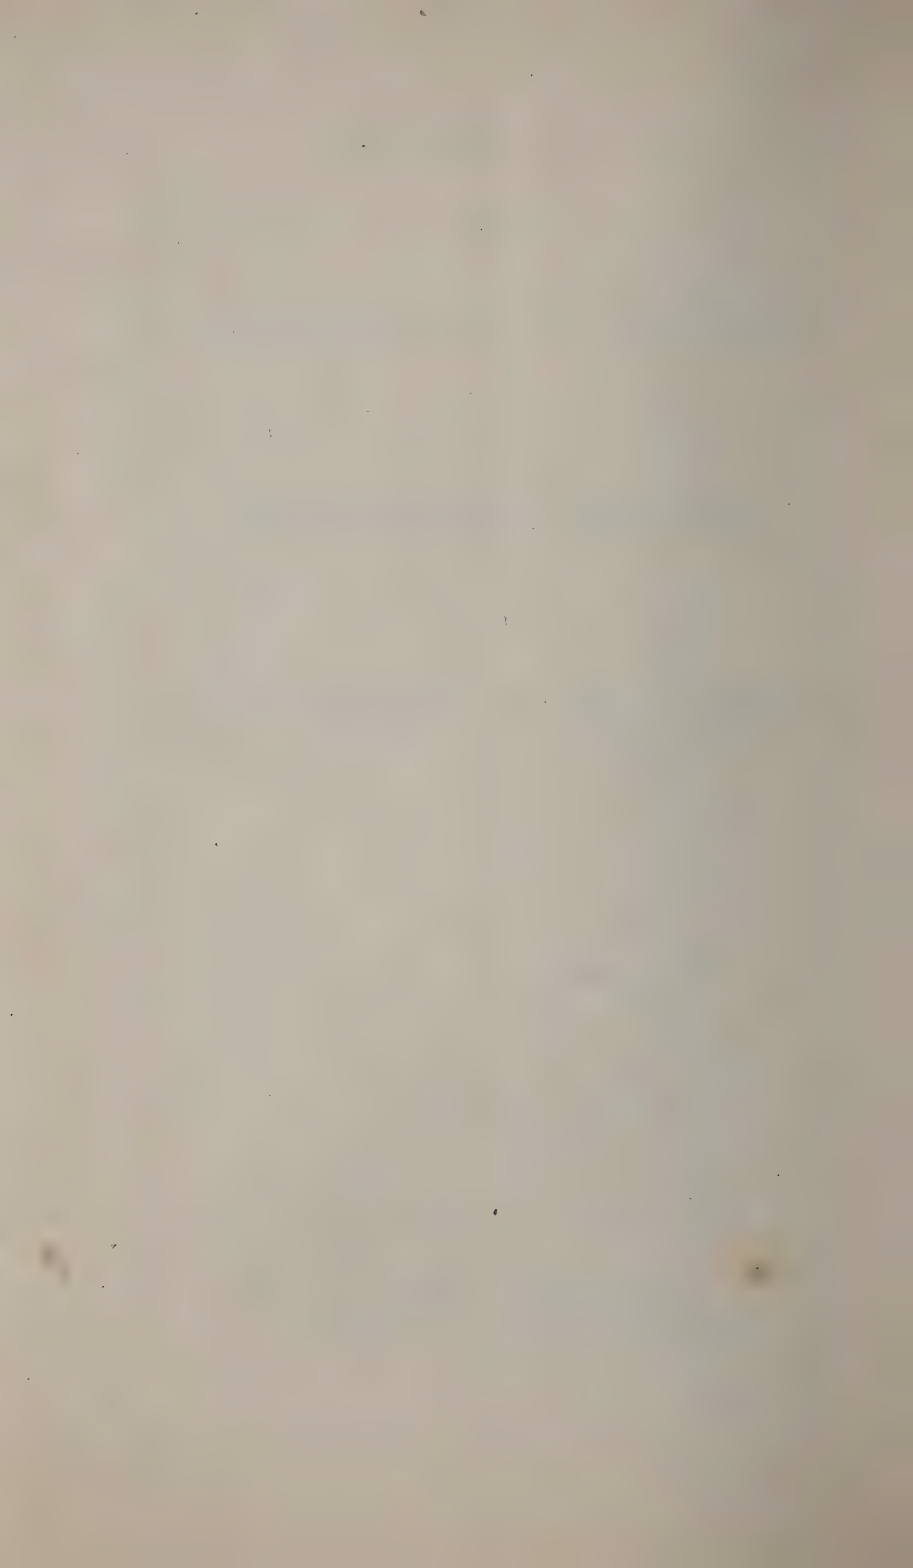

M. T. GIBBONS,	} <i>School</i>	
REV. L. WARNER,		} <i>Committee.</i>

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
OF THE
Town of Granville,

For the Year Ending March 13, 1886.

STATISTICS.

Number of schools,	10
Number of children in town, May 1, 1885, between 5 and 15 years of age,	228
Number of children between 8 and 14,	149
Number of pupils in the schools,	282
Average membership,	198
Average attendance,	174
Pupils under 5 years of age,	12
Pupils over 15 years of age,	41
Pupils neither tardy nor absent for a term or more,	50
Number of different teachers,	15

EXPENSES.

Salaries of teachers,	\$2,133 77
Fuel and fires,	171 36

Express charges and postage,	8 33
	\$2,886 04

RESOURCES.

Appropriated for schools,	\$2,300 00
" " text-books,	250 00
" " repairs,	200 00
State fund,	313 11
	\$3,063 11
Balance unexpended,	\$177 07
New books and supplies on hand,	51 79
Cash received for books and stationery sold to pupils,	8 99

Remarks.

The schools, with the exception of the one in District No. 6, have been in session thirty weeks. There has been more absence than there should be in most of the schools, which has proved an injury, not only to the absentees, but also to the schools of which they were members. We have bought during the year 404 text-books, besides writing-books and spelling-blanks. Many of the books have been carefully used, but some are much worn and soiled. The town should make new by-laws which would authorize the Committee to recover the value of books lost or injured.

The school-room in District No. 8 has been enlarged by taking in the wood room, and the building has been painted. The houses in Districts No. 7 and 9 have been re-shingled on the south roof.

We would recommend that an appropriation be made to build a new school-house in District No. 4 during the summer, as the building is so dilapidated that it is not worth the repairs now to make it a proper place for teacher or pupils.

The ceiling in No. 5 is in a bad condition, and needs to be repaired. A new stove is needed in No. 1, and the walls ought to be painted. Some repairs are also needed in No. 10.

We would recommend that an

for general repairs, and \$250 for text-books and supplies for the ensuing year. We think it would be advisable to keep a year's supply of wood on hand, so that it might be thoroughly seasoned, as much inconvenience has been caused by being obliged to use green wood.

Respectfully submitted,

E. D. DICKINSON, }
G. G. TREAT, } *School*
CORA A. NOBLE, } *Committee.*

Granville, March 13, 1886.

Repairs, No. 10,	11 97
Sundry repairs,	12 65
Freight and express,	8 21
Postage and telegram,	2 15
Care and cleaning,	33 00
Purchase, marking and distributing books,	30 00
School Committee,	95 00
	\$2,748 59

RESOURCES.

Appropriated by town for schools,	\$2,300 00
Appropriated for text-books and supplies,	250 00
Appropriated for repairs,	150 00
Received from State fund,	319 31
Received for books and stationery sold pupils,	13 79
Received for paint sold,	2 30
	\$3,035 40
Balance unexpended,	\$286 81
Value of new books and supplies on hand,	73 41
Paint on hand,	4 65

Remarks.

No community could pursue a more disastrous and suicidal policy than to provide only third and fourth rate schools for the education of its children. The town of Granville is to be congratulated for the liberal and wise policy it has pursued for a series of years, in regard to common school education.

Those who have kept themselves informed in regard to our schools for the five or eight years past, need not be told that there has been a noticeable, a marked advance. Your Committee are of the opinion that during the past year there has been in most of the schools, more thorough schoolroom work than ever before, witnessed in the vigorous efforts of teachers and pupils to attain higher scholarship, in the mental and moral culture received, in the good deportment exhibited, and in the uniform attendance of the pupils.

The expenses for the teachers, salaries, books and supplies, repairs, fuel, cleaning, and building fires, will be tabulated in the column of statistics. They have all been kept within the appropriations made by the town a year ago.

A prudent regard for the preservation of the property of the town imperatively demands some repairs *immediately*, particularly on school-houses Nos. 2 and 5, in addition to No. 10, for which latter a special appropriation will be asked. Your Committee are of opinion that all these repairs, including the needed painting, can be brought within \$150, which sum they respectfully ask the town to appropriate.

Although the public statutes of the state (see Chap. 203, Sec. 78) inflict severe penalties for wantonly defacing or injuring

school-houses, or any of the apparatus or other property belonging to or connected with them, still we would urge the town to make new by-laws, which would authorize the School Committee to recover the value of books lost or injured by the pupils.

We would recommend that an appropriation of \$175 be made for the purchase of school-books and supplies for the ensuing year.

A new school-house has been built in No. 4 by a special committee, adding greatly to the comfort of pupils in that district and the efficiency of the school.

Respectfully submitted,

E. D. DICKINSON,	} <i>School</i> <i>Committee.</i>
T. O. RICE,	

Granville, March 15, 1887.

Care and cleaning,	26 60
Express and postage,	8 10
Purchasing, marking, and distributing books,	30 00
School Committee,	98 49
	\$3,060 60
Balance unexpended,	\$477 40
Text-books and supplies on hand,	125 00

REMARKS.

Ten schools have been in session thirty weeks, and on the whole have been doing fairly well.

The number of pupils who have neither been absent nor tardy for a term or more has largely increased during the past year, which is an indication of an increased desire for knowledge on the part of pupils, and is a hopeful sign of better schools in the future.

School-house No. 5 was rebuilt in time for four weeks' school in the spring term, and we added the extra weeks to the fall and winter terms.

In August we were called to mourn the loss by death of one of our number,—Rev. T. O. Rice,—a faithful and efficient member of the board, one who was always ready to perform his whole duty.

We again call your attention to the need of paint on school-houses No. 3 and No. 9, and would recommend an appropriation of \$150.00 for the same and for general repairs.

We would ask and earnestly recommend that the town add six weeks' schooling to the present number of thirty weeks.

The school-house in No. 2 is sadly in need of a new floor and desks, and we would ask an appropriation of \$150.00 for the same.

We also ask an appropriation of \$175.00 for text-books and supplies.

All of which is respectfully submitted.

S. B. ROOT,
C. C. GIBBONS, } *School Committee.*
M. C. PENDERS, }

Granville, March 7, 1889.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Granville,

For the Year Ending March 7, 1891.

Number of schools,	11
Number of different teachers,	17
Number of pupils between 5 and 15,	185
Number of pupils between 8 and 14,	125

For the last year our schools have generally been prosperous. We have tried supervision through part of the year, and although the results are not so apparent to the casual observer, yet it has resulted in better work throughout all the schools. Each teacher has been reminded of her faults, and been shown a way to correct them. The schools have been in session thirty weeks, with the

single exception of District No. 5, which is still in session. In District No. 9 the pupils have been transported to District No. 8, effecting a saving in expense with no detriment to the latter year. There are a few pupils in Stow District No. 6, who have been accommodated in district No. 5.

We would recommend that an appropriation of \$100.00 be made for the transportation of pupils, and also one of \$175.00 for the purchase of books and supplies.

All of which is respectfully submitted.

S. B. ROOT,	}	<i>School</i>
M. E. SEYMOUR,		<i>Committee.</i>

Superintendent's Report.

To the School Committee of Granville :

I present the following Report of the work of the Superintendent since May 15, the time when I entered upon the duties of the office.

Having been frequently requested to give a brief outline of the advantage to the town of a superintendent of schools, I will do so in part, since this is the first year that one has been employed under the law of 1888. It is well understood that the avenues for the employment of young women, their various opportunities for obtaining a livelihood, have increased largely within the past ten or fifteen years. Type-writing, short-hand, telegraphy and the telephone are a few among the branches that have offered new means of employment, and the rate of wages paid in these and other new occupations has drawn away many of our best minds from the profession of teaching. Our cities and manufacturing towns also have greatly increased in population within the time mentioned. The allurements of city and village life draw many away from the country. It is plain that in consequence of all these things the country towns are the sufferers, and especially as far as the schools and teachers are concerned. There are not scholars enough in the various districts separately by which the schools can be graded, nor the money to pay accomplished and carefully-trained teachers. What, then, shall be done?

It was thought best to pass a law to allow the employment of a person to superintend the schools who should be able to aid the teachers in the best methods of teaching, and who should visit the schools often enough to see those methods well carried out, and who should advise and suggest improvements in regard to school work and management, create a proper spirit of emulation and a higher appreciation of the responsibility and importance of their duties as instructors; and thus supply as far as possible the lack of such teachers as we are unable from our limited means to employ. Whatever tends to improve the quality of the teaching must necessarily improve the schools. In any business or occupation, the employment of persons to carry it on who know but little about it, is to have the work poorly done and their wages thrown away, and teaching is no exception to this rule. The people have their own work to attend to, so do the School Committee; and even if they had not, they have not generally spent the better part of their time and mentality in the study of methods of instruction, and would not be able to direct the work of teachers to the best advantage.

Now in these towns, such as Granville for instance, we want, first of all, good work done—work that will count in the future life of the boys and girls; work that will be helpful to them; that will serve to render them more intelligent; better able to obtain a living; better able to compete with others in life. We want minds well disciplined, scholars well trained, able, and apt to think for themselves when occasion calls. In short, able to *do* something. Their chances will not be so good in life unless they are well equipped with well-trained minds. The untrained mentality and muscularity of Europe come to this country by millions; and in all occupations that require muscle only, where are our boys and girls? *Underbid every time.* And they must have the advantage of school training, *good, practical* school training, too, if they want to hold their own and be successful. I am only

now referring to the practical side of this question in its narrowest sense. I do not bring out the necessity of education for good citizenship, nor its value as a means of enjoyment and development, but in the most limited sense possible to view it. We need to have good work done by our teachers and scholars. Would you hire half a dozen men or women and set them at work without having them looked after? You well know that you would need a good bank account to even up things if you did.

As a matter of economy I suggest for your consideration the advisability of closing the school in South Lane, West Granville, and requiring the pupils now belonging to that school to attend the school at Ore Hill. The school at South Lane consists of eight pupils in all, with an average attendance of about five. The school costs in round numbers two hundred dollars a year, being a cost of forty dollars apiece for thirty weeks of school in the year. The pupils could be transported during the winter term and in bad weather for fifty dollars or less, probably, leaving one hundred and fifty dollars saved to the town. I have measured the school-room at Ore Hill, and find that there is room for four double desks—three would be all that would be needed, and they could be taken from the South Lane school-house. Sixty-three dollars have been saved by closing the school at the southwest part of the town during the last two terms, and transporting the three pupils constituting it to the Ore Hill school. This is equal to a saving of ninety-five dollars a year on that school only.

A plan will be presented for your consideration, by which a still farther saving of sixty dollars a year can be made without closing any other school.

In all these changes I think the schools will be benefited, and the sum of three hundred dollars a year saved to the town; or with the same amount of money that is raised at present, a month more of school could be had in each of the school districts in town during the year.

TEACHERS.

It is a custom in some towns to report each school separately, giving an opinion as to the measure of success which each teacher has had in the opinion of the committee or superintendent. I have not done this for various reasons, among which may be mentioned the difficulty of stating the causes of success or failure in any report, and the injustice of making comparisons between teachers, unless all difficulties are fully discussed, which would not be any advantage to the teachers or the community, either. Let it suffice to say that I believe all the teachers employed in this town during the time I have been superintendent, have labored conscientiously, endeavoring to do the best work they could, and in case any have failed to accomplish all that could have been wished, it has been through a combination of untoward circumstances, or a lack of ability—certainly all have tried to do their best, and in most cases very good work has been done.

My relations with the teachers, pupils, and also the citizens, as far as I have been able to meet them, have been exceptionally pleasant, and have served to make the work of superintending the schools of this town a very enjoyable one.

Thanking the committee for their uniform courtesy and consideration, I am respectfully yours,

GEORGE T. WIGGIN,

Superintendent Schools of Longmeadow, Agawam and Granville.

ARTICLES

To be voted upon at the Annual Meeting, March 16, 1891.

ARTICLE 1. To choose a moderator to preside in said meeting.

ART. 2. To determine the number of Selectmen and Constables.

ART. 3. To choose all other necessary town officers for ensuing year.

ART. 4. To vote on question "Shall license be granted for the sale of intoxicating liquors in this town the coming year?"

ART. 5. To hear the reports of Selectmen, Treasurer and School Committee, and act thereon.

ART. 6. To determine the manner of repairing the highways for ensuing year.

ART. 7. To raise such sums of money as may be deemed necessary to defray Town charges for ensuing year, and make appropriation for same.

ART. 8. To see if the Town will vote to purchase books for the use of schools and make appropriation for same.

ART. 9. To see if the Town will vote to make any needed repairs on Town buildings, and make appropriation for same.

ART. 10. To see if the Town will accept the list of Jurors as prepared and posted by the Selectmen.

ART. 11. To see if the Town will elect a board of Library Trustees, and appropriate the money necessary to secure the gift of one hundred dollars' worth of books from the State.

ART. 12. To see if the Town will authorize its Treasurer to borrow money in anticipation of taxes for current year.

ART. 13. To determine manner of collecting taxes for ensuing year, and what the compensation shall be.

ART. 14. To see if the Town will choose one or more persons to take charge of all lawsuits that may be brought for or against the Town the ensuing year.

ART. 15. To see if the Town will vote to make field drivers, pound keepers, and use their own yards for pounds.

ART. 16. To see what action the Town will take relative to providing for maintenance and relief of soldiers and sailors and their widows, as contemplated by Chapter 298, Acts and Resolves of the year 1889.

ART. 17. To see if the Town will take any action in regard to wood for schools.

ART. 18. To see if the Town will allow discount on taxes.

ART. 19. To see if the Town will take any action toward buying a Town Farm.

ART. 20. To see if the Town will adopt a by-law in regard to dogs.

ART. 21. To see if the Town will contract for highway repairs for a term of years.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Granville,

For the Year Ending March 5, 1892.

Number of schools,	8
Number of different teachers,	18
Whole number of scholars,	180
Number between 8 and 14 years of age,	95
Number under 5 years of age,	2
Number over 15 years of age,	13

RESOURCES.

Appropriated by Town for schools,	\$2,000 00
Appropriated by Town for books,	150 00
Received from State fund,	359 56
Received from dog fund,	148 58
Received from books sold,	4 28
Total,	2,662 42

EXPENSES.

Salaries of teachers,	\$2,229 00
Fuel,	77 74
Care and cleaning,	37 75
Repairs,	16 17
Services of School Committee,	58 00
Purchasing, marking and distributing books,	30 00
Text books and supplies,	174 72
Transportation,	148 00
Total,	\$2,771 38
Supplies on hand,	\$150 00

The schools have been in session the required number of weeks, and although some of them have not made the progress we would have liked, yet on the whole have been fairly prosperous. We would strongly urge the Town to vote the small appropriation necessary for a Superintendent, and try it at least two years. We would recommend an appropriation of \$150 for transportation of pupils, and \$200 for books and supplies.

All of which is respectfully submitted.

S. B. ROOT, } School
M. E. SEYMOUR, } Committee.

Annual Reports

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
OF THE
Town of Granville,

For the Year Ending March 4, 1893.

REMARKS.

Our schools the past year have been in session thirty weeks, but as the law requires that as the least amount of time that each pupil should be in school, we have come far short of complying with the law ; we therefore earnestly urge that the school year be increased to at least thirty-six weeks. The schools on the whole have done fair work, and since our Superintendent began his labors, have greatly improved. The teachers have been inspired to greater effort, and that effort has resulted in better work on their part.

The pupils in district No. 2 were transported during the spring and fall terms to district No. 1, at a considerable saving of expense, but in the winter term there were too many for transport, so a school was opened there.

We would recommend that an appropriation of \$150 be made for repairs, \$200 for transportation, \$2500 for teachers' salaries, and would strongly urge that the Superintendent be retained for another year, so we can have a full and fair trial of the system.

School supplies and text books on hand, \$225.

All of which is respectfully submitted.

S. B. ROOT,	} School Committee	
M. E. SEYMOUR,		of
H. S. PARSONS,		Granville.

Superintendent's Report.

To the Superintending School Committee, Granville, Mass.:—

GENTLEMEN:—

I have the honor of submitting herewith my first report as Superintendent of your schools.

I wish to thank the Committee for the courtesy and consideration shown me, for the willingness with which they have listened to any suggestions of mine, and for the encouragement they have been so ready to give to my efforts.

I desire also to express my thanks to the teachers for their cordial support and hearty co-operation. They have, as a rule, worked for the interest of the schools, and for the carrying out of my suggestions and plans. At best the Superintendent can only advise and direct in the work of the schools, and however much he may do, the fact remains that the schools are, in a large measure, what the teachers make them. This fact should be kept in mind by the Committee, as they are hiring teachers, and by those who expect the Superintendent to revolutionize educational conditions and make good schools out of poor ones.

WORK ATTEMPTED.

Since entering upon my duties in September, I have earnestly striven to work for the interest of your schools in the following ways:—1. In visitation of schools. 2. In holding teachers' meetings. 3. In outlining courses of study.

VISITATION OF SCHOOLS.

During the fall term, I visited each school once in two weeks, in the winter term, once in three weeks. In this connection allow me to quote from Supt. Balliet of Springfield :—

“The superintendent must spend a large part of his time in visiting the schools, not so much to give industrial help to the teachers as to make himself thoroughly familiar with the defects of teaching and the weak points in the management of the schools in order that he may give at the teachers’ meetings helpful suggestions on these points.

“In the past supervision has busied itself too much with petty criticisms, petty suggestions in regard to petty details. School supervision in the future will aim at opening up to teachers broad lines of educational thought, giving them inspiration and stimulus to put their brains into their work, and training them to work out the details of methods of teaching in the light of general principles.”

TEACHERS’ MEETINGS.

“Teachers’ meetings are effective agencies in advancing the interests of the schools. When there is little or no enthusiasm for school work you will find no teachers’ meetings.”

During the last two terms four such meetings have been held. In these meetings I have made use of the facts gathered during my visits to the different schools, and have endeavored, in an impersonal way, to criticise errors and faults observed, and have tried to suggest ways of securing better results. Several of the teachers have materially assisted me in these meetings by discussion and by presenting papers and class work. Special attention has been given to the methods of teaching, different courses of study have been discussed, and a general degree of enthusiasm has been aroused on the part of the teachers.

I wish here to acknowledge our indebtedness to Mr. A. W. Edson and Mr. L. W. Sargent, agents of the State Board of Education, for the interesting and instructive meeting held by them January 12.

COURSES OF STUDY.

From a report of State Agent, Mr. A. W. Edson, I quote the following :—

“A course of studies outlining in full the work to be accomplished in each grade, with suggestions or methods of teaching, is indispensable to effective and satisfactory results. Time and thought must be devoted not only to making out a course of studies, but also to its interpretation and application. A good course must be intelligently comprehended and conscientiously followed, if it is to be of any value.”

Following this suggestion I have prepared a partial course of studies which I have placed in the hands of the teachers. Other outlines will be presented as soon as possible.

CONDITION OF SCHOOLS.

While there is a marked difference in the work accomplished in the various schools, they are, for the most part, in a very good working condition. That some schools are in a better condition than others does not necessarily indicate that those teachers have tried harder than the less successful ones. The difference in results is due mainly to a difference in experience and training. All have tried to do their best, and I think that certain encouraging results are noticeable which I consider to be the result of our teachers' meetings:—1. Better methods are being followed and more intelligent instruction given. 2. In the teaching of reading, of language and of arithmetic, a marked improvement is apparent. In reading, instead of the monotonous droning of words,

an effort is being made to bring out the *thought* in an intelligent and pleasing manner. 3. Best of all, there seems to be an awakening interest in, and an enthusiasm for, the work on the part of the teachers.

STATISTICS.

Number of schools,	10
Number of different teachers,	18
Number of pupils between 5 and 15,	177
Number of pupils between 8 and 14,	102
Number of pupils enrolled,	197
Average attendance,	18.5
Per cent. of attendance,	15.6

Detailed statistics of attendance for Fall and Winter Terms :

Average attendance,	17.2
Per cent. of attendance,	79.6
Number of days lost by absence,	592

SOUTH LANE, EAST GRANVILLE (ONE TERM).

Enrollment,	13
Average membership,	12.6
Average attendance,	11.0
Per cent. of attendance,	87.3
Number of days lost by absence,	85

SOUTH LANE, WEST GRANVILLE.

Enrollment,	14
Average membership,	10.9
Average attendance,	8.2
Per cent. of attendance,	74.3
Number of days lost by absence,	275

ORE HILL.

Enrollment,	32
Average membership,	27.0
Average attendance,	22.4
Per cent. of attendance,	83.0
Number of days lost by absence,	323½

BEECH HILL.

Enrollment,	10
Average membership,	8.8
Average attendance,	6.6
Per cent. of attendance,	75.0
Number of days lost by absence,	206½

UNION SCHOOL.

Enrollment,	9
Average membership,	9.0
Average attendance,	7.3
Per cent. of attendance,	70.0
Number of days lost by absence,	74½

You will thus see that during the last two terms there have been lost by absence 2482½ days, or the equivalent of 16½ school years for one scholar. During the same time there have been 1266 cases of tardiness, and 279 cases of dismissals. Many cases of absence and tardiness are unavoidable, but I am quite sure that children are oftener allowed to be absent from school for very trivial reasons.

“It is obvious that the success of a school depends in no small degree on keeping the minds of the pupils on their work. Anything that withdraws attention from regular and continuous study is deplorable. Absence from school, even occasional, is highly mischievous, because it inevitably detracts from that deep and abiding interest indispensable to thorough work. Irregular attendance is enough in itself to undo in a great measure the efforts of the most skillful, enthusiastic and painstaking teacher.”

When the people are sufficiently interested in the schools to make a special effort to see that their children attend regularly and promptly, then, and not till then, can we hope for the best results in school work.

SUGGESTIONS.

I trust that your honorable body will pardon me if I presume to make suggestions, but it seems to me that there are a few things not yet properly adjusted :

1. I think it would be for the interests of the schools if the Committee should act as a body and not as individuals. In this way I feel sure that better teachers would be employed and the general management of school affairs conducted on more business-like principles.

2. If the Superintendent is to be held responsible for the condition of the schools, it would seem but just that he have some voice in hiring the teachers. Do not misunderstand me. The Committee of course should hire the teachers, but in most cases the Superintendent does have, and in all cases ought to have, the privilege of recommending or nominating the teachers, the same to be confirmed or rejected by the Committee.

3. I would earnestly recommend that the Committee compile a set of rules and regulations designed to govern the teachers and to direct the Superintendent in his work.

4. The Committee should have regular and stated meetings, at which time the Superintendent shall make a report as to the condition of the schools, outline his work for their approval, and receive directions from them.

5. I would urge that the law in regard to the examination and certification of teachers be more closely followed.

Respectfully submitted.

U. G. WHEELER, *Superintendent of Schools.*

ELMER E. SMITH, *Town Treasurer.*

Granville, March 1, 1895.

I have examined the foregoing accounts and vouchers of the
Town Treasurer, and find them correct.

EDGAR B. HOLCOMB, *Auditor.*

Granville, March 7, 1895.

ARTICLES

To be voted upon at the Annual Town Meeting, held
March 18, 1895.

ARTICLE 1. To choose a Moderator to preside in said meeting.

ART. 2. To determine the number of Selectmen to be chosen.

ART. 3. To choose all necessary Town Officers for the year ensuing.

ART. 4. To vote "Yes" or "No" on the question, "Shall license be granted for the sale of intoxicating liquors in this Town for the year ensuing?"

ART. 5. To hear the report of the Selectmen, Town Treasurer, and School Committee, and act thereon.

ART. 6. To determine the manner of repairing Highways for the year ensuing.

ART. 7. To see if the Town will vote to make any repairs on Town buildings, and make appropriations for the same.

ART. 8. To raise such sums of money as may be deemed necessary to defray Town charges, and make appropriations for the same.

ART. 9. To see if the Town will accept the List of Jurors as prepared by the Selectmen.

ART. 10. To see if the Town will vote to authorize its Treasurer to borrow money in anticipation of payment of Taxes for the current year.

ART. 11. To determine the manner of collecting Taxes the ensuing year, and decide what the compensation shall be.

ART. 12. To see if the Town will allow Discount on Taxes.

ART. 13. To see if the Town will vote to adopt a By-Law in regard to the Tax on Dogs.

ART. 14. To see what appropriations the Town will make of the money received from the Dog Fund.

ART. 15. To see if the Town will vote to employ a Superintendent of Schools, in accordance with Chapter 431, Acts of 1888.

ART. 16. To see if the Town will vote to instruct the School Committee to authorize the Superintendent to hire Teachers.

ART. 17. To see what action the Town will take in regard to procuring Wood for Schools.

ART. 18. To see if the Town will vote to adopt a system by which they will choose its Selectmen to serve for a term of three years.

ART. 19. To see if the Town will vote to choose one or more Agents to take charge of all Lawsuits that may be brought for or against said Town within the year ensuing.

ART. 20. To see what action the Town will take in regard to providing for the maintenance and relief of Soldiers and Sailors and their Widows, in accordance with the provisions of Chapter 298, Acts of 1889.

ART. 21. To see what action the Town will take in order to prevent Snow from drifting in the highway near Potash brook.

ART. 22. To see if the Town will vote to make Field Drivers Pound Keepers, and to use their yards for Pounds.

ART. 23. To see if the Town will vote to elect a Committee to act with the Congregational Church Committee of the East Parish in regard to the coming Jubilee.

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
OF THE
Town of Granville,

For the Year Ending March 1, 1895.

To the Citizens of Granville:

For a full report of our schools, as regards what has been done in the way of purchasing supplies, the work in the teachers' meetings, the attendance of the pupils, and especially the non-attendance, the work of the Superintendent, and general work of the schools, we refer you to the very able report of our Superintendent.

We feel the good results from the Superintendent's work are beginning to make themselves manifest. There is a decided improvement in methods of teaching most of the branches. Teachers are more careful that the pupils make progress in their studies, as each teacher is required to make monthly reports to the Superintendent of just the amount of work done by each class.

The work has been retarded in some of the schools by several changes in teachers. In some cases this was due to the inefficiency of the teachers; in others, by the offer of more salary, or

more school weeks in a year, from other towns. Our schools have been in session thirty-three weeks.

By way of repairs, the largest item was the enlarging of North Lane school house, building a wood shed and painting both the buildings. Some minor repairs have been made upon the other school houses and fences. Three new stoves have been purchased. During the next year the South Lane school house, West Granville, will need underpinning and some other repairs on the building; new floors in the Primary and Grammar rooms are necessary. Some more of the school houses need painting and out-houses repaired.

We think it would be economy, and for the good of the pupils, to continue our present plan of transporting the pupils from District No. 2 to No. 3. Next year it will be well to transport the pupils from District No. 9 to Ore Hill.

In the spring death visited our Board, taking from us the senior member and chairman, Mr. H. S. Parsons. At a joint meeting of the Selectmen and School Committee, Mrs. Wm. Barnes was elected to serve as committee the remainder of the year.

We would recommend an appropriation of \$2500 for fuel, teachers' and superintendent's salaries, \$150 for transportation of pupils, \$200 for books and supplies, and \$175 for repairs.

We have given orders for support of schools for year ending February 28th, 1895, to:

Mrs. Wm. Rowley, for cleaning house No. 4,	\$2 00
U. G. Wheeler, salary March,	41 66
Joseph McHugh, care house No. 5,	2 00
Mrs. Chas. Stevens, cleaning house No. 3,	4 00
Mrs. Joseph Kearney, cleaning houses Nos. 8 and 10,	4 00
D. Lothrop & Co., school books,	6 00
Ginn & Co., school books,	23 85
Mrs. David Roach, cleaning house No. 5,	2 25
Geo. F. King & Merrill, school supplies,	34 78
Boston School Supply Co., school supplies,	7 56
A. J. Bruch, slating blackboards,	6 60
J. O. Roberts, freight bills, 1893,	3 00
O. D. Case & Co., blackboard material,	14 90
J. L. Hammett, books and supplies,	19 13

E. D. Dickinson, care and distribution of books,	\$10 00
E. D. Dickinson, services as School Committee,	10 00
John G. Hall, express bills,	1 45
Mrs. Alonzo Keep, teaching, 1893,	10 00
Mrs. Nelson Frisbie, cleaning house No. 7,	2 00
E. S. Gibbons, school supplies,	6 50
U. G. Wheeler, salary April,	41 66
E. D. Dickinson, postage and telegram,	2 50
E. D. Dickinson, taking school census,	10 00
U. G. Wheeler, salary May,	41 66
J. H. Bryan, door mats,	9 00
E. S. Gibbons, school ink,	2 50
Mrs. John Phelon, cleaning house No. 1,	2 00
Ethel L. Stratton, teaching No. 5,	49 00
Dora S. Hammond, teaching No. 1,	100 00
Ada M. Cook, teaching No. 3,	80 00
Lucy Moore, teaching No. 4,	60 00
Jennie E. Barlow, teaching No. 3,	100 00
Elnora E. Miller, teaching No. 8,	88 00
Myrtle Hakes, teaching No. 7,	66 00
Mabel Alvord, teaching No. 10,	66 00
Edward R. Chapman, wood Nos. 8 and 10,	20 00
Ralph Clark, care house No. 4,	1 50
Harry Ripley, care house No. 3,	4 00
Robbie Sauers, care house No. 1,	3 00

Respectfully submitted.

MRS. WM. BARNES.

MR. E. D. DICKINSON.

MRS. ORVILLE CARPENTER.

Superintendent's Report.

To the School Committee of Granville :

I herewith submit the annual report of your Superintendent of Schools. From May 19th, the date of my election, to the close of the spring term, I devoted my time to learning the methods and purposes of my predecessor and the condition of the schools.

In Mr. Wheeler's able reports you have had a statement of his lines of work. I have attempted to follow his plans closely enough to give the school system continuity and prospective completeness. For many helps and suggestions in carrying out this work my thanks are due the committee, teachers, and your former Superintendent.

Tuesday, June 5th, Mr. Edson visited schools in the forenoon, and held a teachers' meeting in the afternoon at Granville Center, in which he discussed some general principles of teaching, but paid particular attention to methods and aids in arithmetic and geography.

Mr. Edson also held a Teachers' Institute at Southwick, September 25th, to which all teachers in the district were invited.

The program was as follows :

9 A. M.—Drawing,	H. T. Bailey
10 A. M.—Arithmetic,	G. H. Danforth
11 A. M.—Geography,	Miss Elvira Carver
12 M.—Lunch.	
1 P. M.—Arithmetic,	G. H. Danforth
2 P. M.—Drawing,	H. T. Bailey
3 P. M.—Discussion, Relation of the Teacher to the Community	

Miss Benjamin of Agawam Grammar school, Miss Powers of Feeding Hills Grammar school, Mrs. Carpenter, Mr. Leonard of

Feeding Hills, and Messrs. Fletcher and Hudson of Southwick, participated in the discussion which was closed by Mr. Edson.

These meetings have been a positive benefit to our schools.

Aside from this special help four teachers' meetings have been held during the fall and winter, with the loss of but one half-day from school time. Some attention has been given to every subject the law requires taught, and both committee and teachers have added to the value of these by their regular attendance and willingness to participate. The present arrangement of holding these meetings Saturday morning seems satisfactory to all concerned. They ought to be good enough to repay teachers for the time and effort required to attend outside of school hours. I can do little for those teachers who are not there.

Once in three weeks I have spent two or three hours in each school. These visits have been made for the purpose of exchanging books, distributing supplies, giving illustrative lessons, and observing the methods of instruction and management that I might help the teachers by general hints at the teachers' meetings or by personal suggestions.

WORK IN REQUIRED SUBJECTS.

The improvement in reading is especially noticeable in several of the smaller schools, and one individual gave strong evidence in favor of present primary methods when he said, "The little ones read better than those who are eight or ten years old." Considerable attention has been paid to teaching the sounds of the letters and the use of the dictionary with a view to making the children independent readers. Oral spelling and spelling by syllables have been practiced for the same purpose, and those teachers who have had intelligent faith in the value of such drill have testified to its usefulness.

Perhaps the most notable feature of the year has been the introduction of various kinds of reading matter. Enough lower grade readers are owned so that a child may read several of each before taking the next higher. Another forward step is the purchase of such books as Montgomery's History for Beginners, Black Beauty, Seaside and Wayside, Aesop's Fables, Our World Readers, etc. On the average they cost less than regular readers (in one case

six cents per copy), they keep the child contented to stay in a certain grade of reading until he has mastered its vocabulary, furnish him much information, and, above all, cultivate a taste for good literature. The children read them with positive avidity.

Occasional purchases of books in geography, natural science, history and literature should be made until we have material for a complete course of reading. Dr. Hall says, "The school has no right to teach how to read without doing much more than it now does to direct the taste and confirm the habit of reading what is good rather than what is bad."

The Public Library is one of the most important educational factors we possess. A slight examination has convinced me that the books have been selected with unusual care and discrimination, and as a consequence furnish valuable material for supplementary reading in almost every department of school work. I hope that as additions are made from time to time the needs of the schools will be kept in mind.

Perhaps later on books will be procured on school methods and management. Some plans should be adopted whereby *all* the teachers and school children may enjoy its privileges.

Each school has been furnished with a drill table in Arithmetic prepared in the hope of making pupils as rapid and accurate in all combinations of small numbers as they were once expected to be in the multiplication table. The effort to eliminate useless subjects, and emphasize objective work and mental drill has been continued with good results.

There is a growing tendency in the schools to teach "Real Geography," and pupils have learned something by actual observation and inference. Frye's Primary Geography is giving satisfaction. It recognizes to quite an extent the fact that "primary geography rests on a basis of its own." If the advanced book is equally good, we shall have an excellent series and it will be best to modify the course to suit these books. Moulding boards and reference books are needed.

An attempt has been made to require the use of correct language in all oral as well as written exercises, and considerable of the language work is based on the experience of the children.

In regard to Physiology, the Committee of ten say, "Where instruction in physiology and hygiene is required in the primary

grades by the law of the state, it may be preceded by a simple account of the structure of the body. It should include brief and elementary discussion of the principal groups of the functions and should lay greatest stress, as is the intent of the law in most cases, upon such simple precepts of hygiene as may be clearly understood and practiced by the child." A course of study in harmony with this recommendation has been placed in the schools, and the teachers were advised to give this subject ninety minutes per week from the first of November to the close of the school year. A definite amount of time given to physiology and hygiene is certainly better than a little anatomy sandwiched in at the teacher's convenience.

The work in writing and drawing has been partially systematized, in fact the work for the last two terms in these subjects has been outlined more definitely than that of any other branch. Some good work has been done in all the schools and in certain cases it has been exceedingly satisfactory. A few cheap sets of drawing forms should be purchased for the schools not yet supplied.

The systematic study of history is deferred to the grammar grades. To prepare for this and furnish historical information for those who leave school at an early age, the historical readers already referred to have been introduced. Local history has received some attention.

GENERAL REMARKS.

It is impossible for a new comer to say with well-founded assurance that the schools of the past year have been better or worse than heretofore. The teachers have shown a commendable degree of professional enthusiasm, and a fair share of time has been given to every subject in the curriculum.

Promotions are not yet systematic, and the results are too rapid promotion and "marking time." The reports of work done have been helpful to the incoming teacher, but more definite arrangements must be made.

Some attention ought to be given in every school to the study of current events. Such exercises broaden the child's mental horizon, teach him to gather the important facts from the news-

paper, and test in a practical way his knowledge of geography, history, civil government, ethics, etc.

A course in nature study will be prepared for use next term. This work has for years been taken in the best schools of the state as a basis for language, drawing and geography. Properly conducted it trains the power of observation, and opens new avenues of enjoyment.

The lengthening of the school year was a step in the right direction, and the arrangement of terms has enabled the older pupils to take advantage of this opportunity to obtain three weeks more of school.

More or less High school work has sometimes been done in the Grammar school. Would it not be well to arrange for a full year in this grade? If this is done a little money may be saved that would otherwise be paid for tuition in another town. More than this it may encourage some children, who would not go away to school, to stay in this one a year longer and thus raise the standard of home trained scholarship.

SCHOOL-HOUSES.

The remodeled North Lane school-house is well suited to its purpose. Several buildings need a coat of paint and minor repairs. The one in South Lane ought to be underpinned. If the number of pupils at Ore Hill is to continue, the school room should be enlarged. The air space per pupil in the winter was not more than two-thirds that required in buildings where there is artificial ventilation.

ROLL OF HONOR.

Names of pupils who were present every day during one or more terms.

SUMMARY OF STATISTICS.

Number of pupils between 5 and 15,	211
Number of pupils between 8 and 14,	140
Number of pupils over 15,	22
Number of pupils under 5,	5
Enrollment,	239
Average membership,	171
Average attendance,	146
Per cent. of attendance,	85.4
Total number of days lost,	4070
Total number of dismissals,	332
Total number of tardinesses,	1481

I am sorry to record a poorer attendance than that of last year. The severity of the winter may account for this.

In accordance with your suggestion I have examined the records, and find upon the registers of the schools names of more than fifty children between the ages of eight and fourteen years who have not attended school twenty-eight weeks during the past three terms. Doubtless in many of these cases there was good reason for the absence, but it was not *all* necessary. For the benefit of those who are not familiar with the law, I quote the first Section :—

CHAPTER 498.

An Act relative to the attendance of children in the schools.

SECTION 1. Every person having under his control a child between the ages of eight and fourteen years, and in every city and town where opportunity is furnished, in connection with the regular work of the public schools, for gratuitous instruction in the use of tools or in manual training, or for industrial education in any form, a child between the ages of eight and fifteen years, shall annually cause such child to attend some public day school in the city or town in which he resides, and such attendance shall continue for at least thirty weeks of the school year, if the schools are kept open for that length of time, with an allowance of two weeks'

time for absences not excused by the Superintendent of Schools or the School Committee. Such period of attendance shall begin within the first month of the fall term of school, and for each five days' absence of any such child thereafter, in excess of the above allowance, before the completion of the required annual attendance of thirty weeks, the person having such child under his control shall, upon the complaint of the school committee or any truant officer, forfeit to the use of the public schools of such city or town a sum not exceeding twenty dollars, but if such child has attended for a like period of time a private day school approved by the school committee of such city or town, or if such child has been otherwise instructed for a like period of time in the branches of learning required by law to be taught in the public schools, or has already acquired the branches of learning required by law to be taught in the public schools, or if his physical or mental condition is such as to render such attendance inexpedient or impracticable, such penalties shall not be incurred.

No school question demands more serious attention than this matter of non-attendance.

Respectfully submitted.

FAIRFIELD WHITNEY.
